MISSION STATEMENT

McCausey Lumber Company is a team of dedicated professionals, committed to our customers and the industries we service. It is our goal to provide high quality product, prompt delivery, and to build long-term relationships with our customers and suppliers. Through continued product development, we are committed to meet the ever-changing needs of our customers

ABOUT US

Based in Detroit, Michigan, McCausey Lumber Company started in business over 60 years ago, as a supplier of common building materials to the construction trade. As the years passed and Metro Detroit became saturated with builder supply yards, the company's owners made a bold decision to change course and become wholesale oriented, and less dependent upon sales of typical construction items. The objective was to concentrate on sales and distribution of specialty wood products for unique industrial and commercial applications. This led the company into the importation of materials from various parts of the world. Over the years, McCausey Lumber Company aligned itself with some of the world's leading producers of wood products from such countries as Finland, Sweden, Germany, and several others throughout Asia and South America.

Today, the company is still family owned and managed. Its customer base has broadened into many industries and has grown to become a wholesale distributor of engineered wood products and specialty plywood to the building construction industry. In addition, it is a primary vendor of model and tooling materials to the automotive, aircraft and recreational industries. McCausey Lumber Company's unique ability to supply hard-to-find materials has allowed it to build lasting relationships with clients who have special requirements.

We at McCausey Lumber Company take great pride in sharing our product knowledge, providing solutions for customer needs, and servicing our clients with the utmost attention.
